

How to take photos of your ID-documents with your smartphone camera

1. Find a well-lit room. Place your document as flat as possible on a plain background, such as a table.
2. Focus the image in the center of the document. Make sure that all the edges of the document are visible.
3. Take a photo from directly above. Do not use flash!
4. Make sure that all the personal information is legible and visible.
5. Send us a few different images from different angles to help us assess and verify your document.

✓ Digital Images which will normally be accepted:

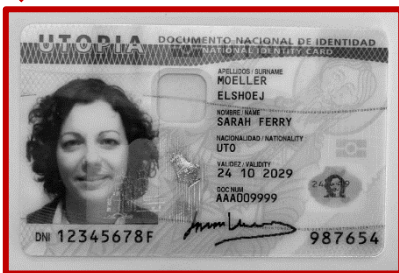

Examples of acceptable standard photos taken from directly above the document.

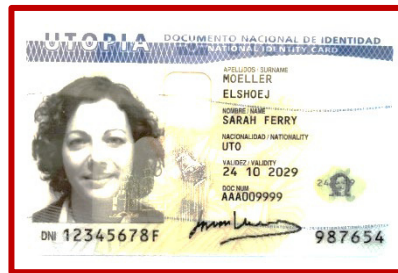

Additional Images taken from different angles.

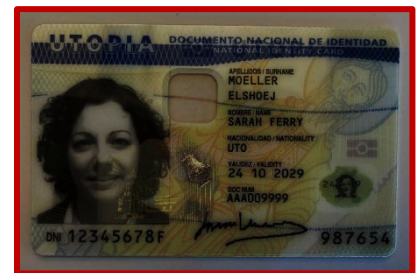

✗ Digital Images which will NOT be accepted:

Black and white images

Images which are too bright

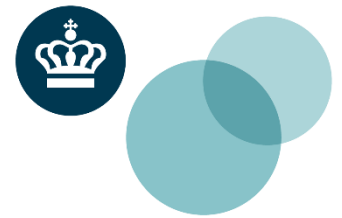

Images which are too dark

Cropped edges

Too much glare on the surface
